

We definitely appreciate Royal Papers and Tony King, their Equipment Sales Specialist for their dedication to "Excellent" service provided to our facility.

Always a timely response to equipment repairs and technical advice.

If there is an urgent need for a certain cleaning item, they will get it to us.

No matter what time of day it is, Tony King responds without hesitation or excuses. He listens, assesses the problem, and responds. If he doesn't have the answer, he will find it.

Tony King is a man of integrity, knowledge and a professional.

I would highly recommend Royal Papers to anyone because of their professionalism and commitment to service.
